

SOLON Corporation Ranks #1 Commercial EPC Solar Contractor in Arizona

Solar Power World 2025 Top Contractors List

TUCSON, AZ — September 3, 2025

SOLON Corporation has once again been recognized by *Solar Power World* magazine as the number one Commercial EPC Solar Contractor in Arizona, with a total of over 11 MW installed in Arizona, and more than 15 MW installed in the Southwest U.S. in 2024. To date, the company has installed a total of over 181 MW.

The Top Solar Contractors List is the most recognized annual listing of solar contractors in the United States. It is compiled annually by industry magazine *Solar Power World* to recognize the work of solar installers to decarbonize the grid and support home-grown, local energy.

"The gigawatts put up by our 2025 Top Solar Contractors emphasize just how crucial solar is to our nation's energy mix," said Kelsey Misbrener, managing editor of *Solar Power World*. "From the smallest residential projects to the largest utility-scale solar farms, these installations are keeping the lights on and keeping power affordable. We're thrilled to recognize another outstanding class of Top Solar Contractors and look forward to persevering through legislative hurdles to celebrate our 15-year edition next year," said Kelsey Misbrener, managing editor of *Solar Power World*.

"SOLON's #1 ranking is a testament to our team's commitment to delivering solar projects on time, on budget, and as expected — while maintaining uncompromising standards for safety and quality," said Brian Seibel. "Our solar experts and in-house construction crews stand ready to help customers navigate evolving policy changes and advance projects to shovel-ready status ahead of the July 4, 2026, deadline to safe harbor the federal ITC and lock in today's incentive level."

About SOLON Corporation

Headquartered in Arizona, SOLON Corporation is a full-service commercial and utility-scale solar contractor delivering complete, cost-effective turnkey solar photovoltaic power projects and battery energy storage solutions. SOLON delivers streamlined project development, design, construction, financing, and operational services to customers throughout the Southwest and is committed to advancing solar energy through innovative and efficient technologies.

About Solar Power World

Solar Power World is the leading online and print resource for news and information regarding solar installation, development and technology. Since 2011, SPW has helped U.S. solar contractors — including installers, developers and EPCs in all markets — grow their businesses and do their jobs better.
